THE NAME: Proprietors Blair and Laura Lott explain: We started planning our new life in wine country around 2015. We knew that we wanted to embrace sustainable growing practices and create a new, more rewarding lifestyle for ourselves. In addition, we knew that we wanted enough land to grow wine grapes AND foster dogs. In addition

we knew that we wanted to create high quality, premium wines. During this period of exploration throughout many of California's wine regions it dawned on us that we could combine our two passions and Rescue Dog Wines was born.
